New photonic design uniformly distributes high-def light

By Designs for Vision Staff

Designs for Vision is introducing an advanced photonic design that provides uniform light distribution with maximum intensity. The patent-pending headlights optically focus the light from the LED to provide 45 percent more light with uniform distribution.

The new LED DayLite® Micro HDi™ uses the new high-definition imaging in an ultra-lightweight headlight in combination with the new Micro power pack. According to the company, the Micro is the market’s lightest and smallest power pack. The complete unit includes two power packs, and each power pack can run up to 10 hours.

Designs for Vision also has added high-definition imaging to the LED DayLite WireLess Mini HDi, providing a lightweight cordless solution with light intensity comparable to many corded headlights. You can choose high-definition imaging with either a wired or wireless design to meet your preference, and either HDi headlight will illuminate the entire oral cavity.

Designs for Vision’s WireLess headlights free you from being tethered to a battery pack. The simple modular designs uncouple the headlights from a specific frame or single pair of loupes. Prior technology married a cordless light to one pair of loupes via a cumbersome integration of the batteries and electronics into the frame. The compact design of the LED DayLite WireLess headlights are independent of any frame/loupes.

Designs for Vision is also featuring the ‘REALITY five-star-rated’ Micro 3.5EF Scopes, which use an innovative optical design that reduces the size of the prismatic telescope by 50 percent and reduces the weight by 40 percent — while providing an expanded-field, full-oral-cavity view at 3.5x magnification.

Building on an established award-winning design, the newest addition to the Micro Series line is the Micro 4.5EF Scopes, which reduce both the size and weight of the telescopes by 44 percent.

New location

You can see the “Visible Difference®” by visiting Designs for Vision in booth No. 1034 at the American Academy of Periodontology meeting, booth No. 611 at the Southwest Dental Conference or booth No. 410 at the Ohio Dental Association meeting — or arrange a visit in your office by contacting the company at (800) 345-4009 or info@dvimail.com.

TWO DAYS THAT WILL CHANGE YOUR LIFE.

TWO DOCTORS WILL SHOW YOU HOW.

Dr. William Dickerson, DDS, FAACD, LVIM, FIAPA, LVIF
Dr. Heidi Dickerson, DDS, LVIM, FIAPA, LVIF

The HOTTEST and most important topics in dentistry are TMD and treating Sleep Breathing Disorders and they will be discussed and what they mean to you, your practice and your future. Don’t miss this opportunity to not only change the lives of your patients, but your life as well. Find the passion so many dentists have that has led them to a successful dental practice and successful life.

We guarantee you’ll be glad you attended or your money back!
