Convenient and reliable instrument reprocessing

An interview with Dr Diego Vezzoli, Italy, about the new Lisa steriliser from W&H

By DTI

Hygiene is of top priority for many dental practices. In addition to increased safety for both the practice team and the patients, the efficient structuring of workflows with state-of-the-art reprocessing technologies plays a particularly important role. Dr Diego Vezzoli, a dentist at the Studio Dentistico Eurodent in Palazzolo sull'Oglio in Italy has been using the new Lisa from W&H for several months. The W&H sterilizer provides support in the form of rapid, reliable instrument reprocessing for practice to cope with an average daily treatment volume of 20–40 patients. The 8-member practice team truly values the advantages offered by the new Lisa.

In a recent interview, Dr Vezzoli spoke about the advantages of the new W&H sterilizer.

“...the simplicity of the system is a considerable advantage.”

What role does the new Lisa play in the hygiene cycle in your practice?

Dr Vezzoli: It is very important. The new Lisa sterilizer from W&H boasts optimized cycle times and thus speeds up our day-to-day work. The reprocessing time between patient treatments is now very short, so the instruments are rapidly available for the next use. The simplicity of the system makes work easier for your practice team.

How do you rate the quality of the new Lisa?

In my opinion, the W&H new Lisa sterilizer provides support in the form of rapid, reliable instrument reprocessing for practice to cope with an average daily treatment volume of 20–40 patients. The 8-member practice team truly values the advantages offered by the new Lisa. The traceability offers the patient security and is also an important quality criterion in our practice. Apart from the simplicity of the system, our assistants also appreciate the ergonomics of Lisa in their day-to-day work. These are two considerable advantages compared with the sterilizers that we used before. We’re satisfied on all fronts.

Efficient, time-saving work is a focus of every modern dental practice. How would you assess Lisa’s performance?

Lisa is clearly delighted with the new Lisa. In addition to the simple integration in the hygiene process, the sterilizer also supports rapid and reliable reprocessing of instruments. The new Lisa provides support in this task.

Do you also use the new Lisa mobile app in your practice?

Our practice team loves the new tool! In my opinion, the Lisa Mobile App can offer valuable support in times with high work volumes and it helps with the optimization of workflows.

What do you think of the design of the new Lisa?

I think that Lisa fits into rooms well. The compact dimensions and flexible front feet make it easy to integrate the sterilizer in our hygiene workflows.

To finish off, could we ask for your personal evaluation of the new Lisa?

I’m very satisfied with my investment. And it’s not just me, my practice colleagues are also very happy with the new Lisa.

Thank you for your time!
