AAP meeting shows profession’s evolution

By David L. Hoexter, DMD, FACD, FICO, Editor in Chief

The annual meeting of the American Academy of Periodontology (AAP) was held from Sept. 28 to Oct. 1 in Philadelphia, a wonderful city in which to enjoy a conference. The convention center is accessible, has a friendly environment and informative personnel — and accommodates a tremendous number of attendees.

Birth of periodontics

In 1965, periodontics was officially titled a specialty by the American Dental Association. This year, the AAP celebrated its 99th anniversary, with members looking forward to the 100th-anniversary celebration next year in San Francisco.

A big differences at the meeting this year compared with past years was the casual attire of attendees: no ties and jackets. Sweaters and jeans are yesterday’s suits and ties. The expensive room setups were first class. The large screens to accommodate the computer images were impressive, as was the commercial support afforded the presenters, eager to catch the attention of the attendees.

The implants inundation

The AAP is one of the most sophisticated groups of detailed practitioners there is. Its exposure to dental literature, recent and past, is unsurpassed. However, the inundation of the implant field into its life, as seen, too, in the maxillofacial, prosthetic and general practice sectors — and even recently, endodontics — has changed the direction of our profession.

Periodontics started out as a specialty that focused on preserving, saving or regenerating the supporting periodontium. Now, it seems that this field is changing direction with its knowledge banner held high. The AAP should once again promote the lofty goals of periodontics and lead the way, so that it will benefit itself, the profession and the public.

The implants inundation

The AAP is one of the most sophisticated groups of detailed practitioners there is. Its exposure to dental literature, recent and past, is unsurpassed. However, the inundation of the implant field into its life, as seen, too, in the maxillofacial, prosthetic and general practice sectors — and even recently, endodontics — has changed the direction of our profession.

Periodontics started out as a specialty that focused on preserving, saving or regenerating the supporting periodontium. Now, it seems that this field is changing direction with its knowledge banner held high. The AAP should once again promote the lofty goals of periodontics and re-establish the goals of periodontics. In doing so, it will benefit itself, the profession and the public.

‘The AAP is one of the most sophisticated groups of detailed practitioners there is.’

YDC fills agenda with top speakers, programs

Organizers of the 2014 Yankee Dental Congress invite you to join 28,000 fellow dental professionals from Jan. 29–Feb. 2 at the Boston Convention and Exhibition Center for “It All Starts Here,” the theme of this year’s meeting.

You and your dental team can enjoy top speakers and experts in dental technology — and explore best practices and resources to improve your practice, increase your knowledge and better serve your patients.

Continuing education
Continuing education program highlights include:
• “Ninth Annual Conference for Women in Dentistry” — Discuss personal branding, optimal aging, exercises to protect your neck and nutritious “sexy” eating.
• “Diagnosis and Treatment of Oral and Facial Lesions Fast Track” — In these six one-hour sessions, learn more about conditions that can affect the oral cavity as well as oral and facial lesion treatment options.
• “Master the Skills of Marketing Your Practice in One Day” — Discover how to market your dental practice with conventional and web-based strategies to help expand practice visibility and excellence.

The speaker lineup features many distinguished experts in dentistry:
• Charles Gerba, PhD — Learn about controlling the spread of pathogens in “Hygiene in the 21st-Century” (205TL).
• John Sorensen, DMD, PhD — Restorative dentists can benefit from “Materials and Systems Selection for Posterior Indirect Restorations” (425RL) and “Clinical Mastery of Anterior Restorations: Treatment Planning” (49RL).
• Sam Simos, DDS — “Taking Your Cosmetic Dentistry from Acceptable to Exceptional” (616SL) will reveal precise steps to take to help ensure a high level of success with your cosmetic practice.
• William Wilson, DDS — Understand what’s necessary in the care and restoration of head-and-neck injuries of wounded soldiers, sailors, marines, and airmen in “Combat Related Injuries and Maxillofacial Prosthetics” (483RL, 624SL).
• John West, DDS — This endodontic specialist will discuss ways you can practice more endodontics and restorative dentistry in your practice in “Building Your Practice Through Endodontics” (617TL).

On Thursday evening, share your passion for health, fitness and fun with colleagues, friends and family at “Going for the Gold at Yankee,” free for everyone.

On Friday evening, join the Massachusetts Dental Society at this 150th anniversary. Celebrate the legacy of the Massachusetts Dental Society at this free anniversary celebration with hors d’oeuvres, music and a cash bar.

You can register online today for the biggest dental meeting in New England at www.yankeedental.com.

300-plus exhibiting at PDC

The 2014 Pacific Dental Conference, from March 6–8 (Thursday, Friday and Saturday) in Vancouver, British Columbia, will feature a varied selection of open C.E. sessions, hands-on courses and a live dentistry stage. One registration fee gives access to all 144 open sessions, which means no pre-selection of courses is necessary.

More than 135 speakers

The variety of topics covered by more than 135 speakers means the entire dental team can access the latest information on dental technology, techniques and materials.

Speakers in the 2014 lineup include John Kois, John Cranham, Sergio Kuttler, Greg Psaltis, Ross Nash, Derek Mahony, Rob Roda, Louis Malcamesh, Bart Johnson, Jesse Miller, Rhonda Savage and Nancy Andrews.

Event includes University of British Columbia Speakers Series

With the University of British Columbia Faculty of Dentistry celebrating its 50th anniversary, the PDC will present the “UBC Speakers Series,” with UBC alumni addressing a variety of topics.

The Live Dentistry Stage is back in the exhibit hall, with demonstrations on Thursday and Friday. On Saturday, the “So You Think You Can Speak?” program features 50-minute presentations by speakers who responded to a call for presentations and were accepted by the meeting’s scientific committee. A number of timely dentistry topics will be covered.

Two-day exhibit hall

The exhibit hall should be busy with more than 300 companies projected to fill approximately 600 booths. Exhibition hours are 8:30 a.m. to 6 p.m. on Thursday and 8:30 a.m. to 5:30 p.m. on Friday.

Special hotel rates are available to attendees, with early booking recommended to ensure availability.

Reservations can be made directly with conference hotels via the links on www.pdconf.com.

JDIQ expands with national gathering of prosthodontists

Following what meeting organizers describe as a highly successful convention this past spring, planning is now in full force for the 44th edition of the Journées dentaires internationales du Québec, which will take place from May 23–27 at the Palais des congrès de Montréal.

At the 2014 meeting, JDIQ will host the Association of Prosthodontists of Canada. Among the benefits expected from this joint venture, which also involves the Association of Prosthodontists of Quebec, will be a larger number of top speakers in implant and restorative dentistry — and a presence at the meeting of a larger number of prosthodontists from across Canada.

The annual meeting of the Ordre des dentistes du Québec continues to be one of the highest-attended dental meetings in North America. In 2014, meeting organizers expect to host more than 12,000 delegates from around the world.

The meeting will feature a scientific program with more than 100 lectures and workshops presented in English and French. The JDIQ meeting is described by organizers as being Canada’s most highly attended bilingual convention.

More than 225 exhibitors will occupy approximately 500 booths in the exhibit hall, making it one of the largest in Canada. The exhibition will be open Monday and Tuesday, May 26 and 27, and it will feature a continental breakfast on both days for the early risers as well as a wine and cheese reception to close out both afternoons.

Featured 2014 speakers already in the lineup include Drs. Dale Miles, Robert Langlais, Steven Olmos, Stephen Niemczyk, Manor Hass, Jonathan Bregman, Michael Di Tolla, Gerry Kugel, Karl Koerner, Joe Blaes, Jason Smithson, Brian Novy, Ken Har- greaves, Thomas Dudney, Robert Gutnick, Tieronia Low-Dog and James Mah.

For more information about the meeting, you can telephone (800) 361-4887, visit www.odq.qc.ca — or you can send an email to congres@odq.qc.ca.

Recapture a passion for dentistry

Feel like you’re stuck in a rut? Need a change? If you want to “regain control” of your practice and recapture a passion for dentistry, consider a Las Vegas Institute for Advanced Dental Studies regional event.

You’ll have the opportunity to discover a path that can lead to both personal and professional satisfaction.

If you’ve considered taking an LVI course but couldn’t justify the expense — or didn’t want to take on the challenge of bringing a patient to Las Vegas — a regional event can be an easier way to see what LVI is all about.

The one- and two-day programs are designed to reveal a more professionally satisfying and profitable way to practice dentistry. You’ll receive high-value information about LVI’s esthetic and occlusal philosophies and learn how to create your own golden age of dentistry by turning your patients into guests and making it easier for them to accept comprehensive treatment.

Also, an experienced LVI regional director will share his or her personal journey and show you how you can create your own.

A regional event — held throughout the year in locations across the United States and Canada — can provide a first step toward boundless opportunities for you and your patients.

The experience is designed to give you tools to improve income, afford better equipment, and more important: It will enable you to provide better care and a higher quality of living to your patients.

For more information, you can visit LVI online at www.LVIGlobal.com.
