Second A-dec Surgery installed for Bridge2Aid.

A-dec are long time friends of Bridge2Aid, having supported the dental charity over the past 5 years with equipment, funding and fundraising, as well as promoting their work on the A-dec stand at Dental Showcase. In November 2008, this support went one step further when two A-dec engineers; Dave Robinson and Brian Anderson were flown to Mwanza to install a new A-dec Performer package in surgery 2. This is the second surgery A-dec have donated and installed and complements the A-dec Radius package in surgery 1 installed in 2006.

A-dec are proud supporters of Bridge2Aid and hope this new surgery will provide much needed dental support and care for the people of North West Tanzania.

For more information about the great work of Bridge2Aid or to make a donation visit the website: www.bridge2aid.org or telephone the UK Office: +44 (0) 114 252 6050

Lighting the way with Dental Sky!

The R&S cordless Easylight LED from Dental Sky does exactly what is says on the tin! This powerful LED light allows for fast, reliable curing after a short start of 3 seconds. This allows for a gradual cure of all composites and restoratives, eliminating shrinkage that is often caused by curing the material too quickly.

Being cordless the portable Easylight LED is simple to use, particularly as the handle is ergonomically designed with your comfort at the forefront. The lightweight handpiece has wide, flat buttons that are clearly set out, and once you are used to the handpiece you needn’t take your eyes off the job in hand. The joystick head the handpiece is fully autoclavable to help to prevent cross infection.

The Easylight LED is supplied complete with a black light guide of 8mm and an oval light hood. So light up your patients mouth and transition from the Easylight from Dental Sky!

To place your order or if you require further information please call Dental Sky on 0800 294 4700.

Achieve Results With Artio™

Artio™ has arrived at DENTSPLY. The new range of instruments has been developed to accommodate the clinician with its ergonomically designed handle with excellent grip.

The super-lightweight instruments have tips made from Ash GryoSteel, a cryogenically treated metal that is highly resistant to wear, for extra durability.

Mr. Bill Sharpling of Kings College London Dental Institute has sampled the new Artio range and was impressed with the results. He said, “After trying the Artio instruments I found them to be very easy to work with. They are lightweight and comfortable to use with a superior level of grip due to the nature of the handle design. In practice the other advantages were that the colour and style made it quicker and easier to identify when sorting, cleaning and replacing as part of the decontamination and infection control process.”

50p from the sale of all Artio instruments will be donated to the Mouth Cancer Foundation. Visit www.mouthcancerfoundation.org for more information.

For more information about the DENTSPLY range of super-lightweight dental instruments, call Freephone 0800 072 5515.

Aseptico Operators Stool

The Velopex team are delighted to launch their 2 portable dental stool – from Aseptico. The stool compliments both the Adult portable dental chair (gray) and the Childrens portable dental chair (red).

Mark Chapman, Director of Sales and Marketing commented: “We’re very excited about the way that our Aseptico range has taken off and this addition is superb.”

The Aseptico range provides the ability to create a ‘dental surgery’ in any room anywhere – all you will need is power. The equipment combines comfortable dental chairs with operating stools, convenient lights as well as delivery systems.

If radiography is required, the Velopex Digital X-ray system and the wireless mobile x-ray unit allow the clinician to produce diagnostic digital radiographs on a laptop computer when on location away from the surgery. Both the laptop and Nomad are battery powered – but can be charged on site.

For more information or to ask any questions, please contact: Mark Chapman Medivance Instruments Ltd Barretts Green Road NW10 7AD Tel 07754 440877

Dentsply

Congratulations to all the candidates at the 2009 52nd DENTSPLY/BDA student clinician programme. The caliber of entry just keeps getting better and the competition this year was of an outstanding standard, which is excellent news for the future of UK dentistry.

Held at the Mandarin Orien- tal Hotel in Knightsbridge Lon- don, the evening was a rendes- vous with over 200 guests representing UK and Irish dental schools, the BDA and other eminent figures from the dental profession.

Thirteen teaching schools put forward an entrant for the adjudication, which was held, at the BDA headquarters during the day. Each student presented a piece of original research to the three adjudicators: Professor Nairn Wilson, Head of School and Dean of Kings College London Dental Institute; Dr. Drummond, Senior Lecturer and Honorary Consultant of Dundee Dental School; and Professor Robbie Mc- Connell, from the Department of Restorative Dentistry College of Medicine, Cork University Dental School.

For information on the 2010 DENTSPLY/BDA Student Clinician Programme, please contact DENTSPLY on +44 (0)800 072 5515 www.dentsplyco.uk

Swallow Dental Supplies Ltd: Dentistry Show: Stand G15

For information on all kem- dent products call Helen or Jackie at Kemdent on 01793 77 0669, or visit our website. www.kemdent.co.uk.
Dentomycin: the first choice adjunctive treatment for chronic adult periodontitis

Dentomycin is a proven effective adjunctive treatment that compliments Scaling and Root Planing through all treatment stages of chronic adult periodontal disease including the first.

Dentomycin simply combats the broad range of bacteria associated with periodontal disease, reaching areas that maybe unobtainable with instruments alone while reducing inflammation, improving patient comfort.

Dentomycin includes the active ingredient Minoxycline, and when applied for 4 times, with 14 days between each application, is proven to reduce key pathogens. The pre-filled applicator allows direct application to the pocket base, and the combination of Dentomycin with scaling and root planing reduces pocket depths by up to 42% over a 12-week period.

Cost effective and easy to use, Dentomycin also offers improved patient satisfaction.

For more information please call 01480 862080, email sales@oraldent.co.uk or visit www.curaprox.info

Back to basics with KAV

Visiting the dentist normally inspires enormous sympathy for the patient. Little thought is spared for the dentist or the considerable musculoskeletal demands placed on dental professionals during procedures. Incorrect sitting posture not only impairs your ability to work, it can also put your health at risk with symptoms including muscular tension, backache and headaches.

In the SENsit you will notice you are sitting comfortably, correctly, and that you have the greatest possible freedom of movement. The backrest, seat height and seat depth can easily be adjusted to suit any height, and the robust safety chassis guarantees great strength and long life.

Make an investment in your practice and your health with the stylish and innovative SENsit.

For further information, please contact KaVo on 01949 755 000, email: sales@kavo.com or visit www.kavo.com

The BACD in Edinburgh!

2009 The Sixth Annual Meeting
Book on line today and save 10%

The Annual Meeting of the British Academy of Cosmetic Dentistry is taking place from the 18th to the 21st of November 2009 at the Edinburgh International Conference Centre (EICC).

In its sixth year, The BACD will address The Future Of Dentistry with lectures and seminars on the latest advances in the 21st century including materials, CAD/CAM, LASKRs, touch screen machines, and digital innovations being frequently introduced into everyday dentistry. In the UK, this conference has been designed to keep professionals at the forefront of high quality dental treatments.

BACD events are always great informative and membership benefits Regional Study Clubs, the renowned Accreditation programme and the Annual Audit that enables members to identify progressive trends and further develop their service to patients.

For more information contact Suzy Bowland on 0207 612 4160 or email info@bacd.com, www.bacd.com

Affordable Excellence With EyeMag Smart Loupes

The dramatic conclusions of the study, published in the Australian Dental Journal, reached many UK patients through January the 15th's London Metro. The research called for alcohol mouthwashes to be removed from shops and made available only on short-term prescription. It was noted that in some cases of oral cancer, use of alcohol-mouthwash was the only risk factor, and it is also believed that ethanol facilitates the cancer-causing effect of nicotine and produces known human carcinogen acetaldehyde.

A range of alcohol-free mouthwashes are also available, so dentists can satisfy patient concerns without compromising on quality.

For more information call 01480 862080 or visit www.oraldent.co.uk

Save With PracticeWorks

The EyeMag Smart provides a cost effective solution to 2.5X magnification, enabling the quick and easy identification of structures, and because the lenses are made with a large field of view, you will never miss a thing. As well as featuring the optical precision associated with Carl Zeiss, the EyeMag Smart is also comfortable, applying the latest ergonomic theory to support ideal posture through - out even the most demanding procedures.

Nuvue offers a service that, by providing a great service, and with prompt and reliable aftercare, you can enjoy peace of mind with your new equipment.

Oral Cancer Link Boosts Desire For Alcohol-Free Mouthwash

Alarm bells are ringing around the world after a study was published in the Australian Dental Journal, reached many UK patients through January the 15th's London Metro. The research called for alcohol mouthwashes to be removed from shops and made available only on short-term prescription. It was noted that in some cases of oral cancer, use of alcohol-mouthwash was the only risk factor, and it is also believed that ethanol facilitates the cancer-causing effect of nicotine and produces known human carcinogen acetaldehyde.

A range of alcohol-free mouthwashes are also available, so dentists can satisfy patient concerns without compromising on quality.

For the latest version of B4 from PracticeWorks, the leading supplier of Practice Management software and Imaging solutions, you can cut reminder costs dramatically.

B4’s recently updated text messaging service lets dentists have replies to their texts, which automatically update the appointment book.

If a practice sends out 500 reminders a month by mail, this could cost practices £5,000 per year. By switching to a text messaging service, practices can save over £2,500 – and many practices are more convenient for patients.

For more information please call PracticeWorks on 0800 169 9692 or visit www.practiceworks.co.uk

Develop World Class Skills With The Diploma Course In Dental Implantology

Perto-Implant Europe Ltd’s renowned and comprehensive Diploma Course In Dental Implantology (April 24th 2009 – February 15th 2010) gives dental professionals a unique opportunity to learn from the world’s best.

The course provides everything General Dental Practitioners need to start confidently offering high quality implant treatment to patients. Modules are taught at state-of-the-art facilities in the UK, Sweden and France and Brazil and cover the entire field of dental implantology, including Experimental and Clinical Considerations, Biomechanics, Anatomy, Digital Photographs, Periodontology and more. Delegates will also learn how to create a Cosmetic/Implant Referral Practice, master General Consent and Medico-Legal Aspects, and explore New Concepts.

Featuring hands-on workshops and the chance to conduct exercises on fresh human cadavers, the course attracts delegates from around the world. Bookings are made on a first come, first served basis and interested parties are advised to book early to avoid disappointment.

For more information please call 01276 469 690 or email info@implantsuccess.com
