Sirona

Sirona UK is a specialist division of Sirona Dental Systems, the manufacturer of the CEREC System, and has now for the last 5 years supplied and supported CEREC CAD/CAM all-ceramic restoration system here in the UK.

With product simplicity key to the success of any dental practice, Sirona are now proud to launch their new CEREC AC Bluecam imaging unit making the CEREC even easier to use for the dentist.

Sirona has helped to successfully integrate CEREC into dental practices for over 22 years, with more than 24,000 systems now in place worldwide. It offers convincing long-term aesthetic restorations in a single visit.

Sirona UK’s mission is to deliver satisfaction to the dentist using tried and tested in-surgery training methods supported by CEREC Specialists who are dedicated to your success.

CEREC AC Bluecam – Seen in a new light.

Bien-Air is offering triple or quadruple packs in a variety of options. Choose from CA 1:1.5 or 10:1 with or without light with large push button quick bar release in either the standard or Diamline diamond coating for optimum user comfort providing an excellent grip to help prevent hand fatigue.

With each of the Long-Life Packs you will save money and receive a free cleaning spray and lubricant spray. Additionally the turbine Long-Life Packs include a quick-connect coupling with or without optic.

Bien-Air are extending the warranty on all Triple and Quad packs of Contra-angles and Turbines to two years instead of the usual 12 months.

Stocks are limited, please contact Bien-Air on 01908 711 505 or visit www.bienair.com now!

We can arrange for installation for you and an aftercare service, thereby fortifying your investment with regular maintenance.

The Grace X5 dental chair is a quality product at an affordable price.

This comfortable chair has a hydraulic elevation system. The standard package at £6,795 (excluding installation) includes options, real leather (in a wide range of colours), massage function, led curing light, built in scaler (piece or stack), fibre optic on 2 lines, air motor, and small x-ray viewer. A menopausal position, and movement safety interrupts, as well as a large delivery table. The deluxe package for £7,840 includes the Grace multimedia camera system, an assistant’s chair and automatic infra red cup filler.

DentalEZ

Since pioneering sit-down dentistry in the 1960’s DentalEZ has been committed to improving working efficiency and to enhance practices.

Our surgery equipment choices are built around our renowned dental chairs. Our J/V Generation is an example, which offers exclusive seat tilt movement, helping maintain proper spinal alignment to reduce stress on discs and soft tissue around the patient’s spine.

All of our chairs have thin narrow backs to provide clear sight lines and direct access to the oral cavity.

We then have a choice of Delivery units to complement, whether over-patient, rear mount or mobile.

DentalEZ range includes seating, lighting, suction and handpieces.

Contact 01442 265051 or visit www.dentalez.co.uk

The Discus team are delighted with the advance. “There is no other LED curing light on the market today that combines a consistent, high output over an 11 millimetre beam,” said Steve Semmelmayer, CEO of Discus Dental.

850th Aquacut Quatro Installed

Bexley in Kent, is now firmly on the map as far as Fluid Abra- sion is concerned! The 850th Velopex Aquacut Quatro has been installed at Dr Braka Thurai sadramur dam’s ‘busy Dental Practice, in Vicarage Road, Bex- ley. This light and air building provides a superb backdrop for this busy dental practice which now offers all patients the availability of fluid abrasion: Cleaning and Treating, in a calming soothing environment. Dr Thurai saddramur dam commented: ‘It’s great! It’s an essential part of modern technology in a modern practice!’

The Velopex Aquacut Quatro contains two chambers,
which can accommodate any combination of the 5 Cleaning and Treating media available. The 5µm Treating powder allows the clinician to ablate hard tissue (Composite, enamel and dentine) creating a relatively rough surface – which is ideal for the latest bonding and restorative materials. The 29µm Treating powder gives the clinician a much smoother cut for finer work.

The Dentistry Show 2009

One of the UK’s leading dental technicians, and his team of specialists, drew considerable interest on stand A4 at the 2009 Dentistry Show. ‘The Art of Technical Dentistry’ and Luke Barnett were one of the focal points at this major event on the industry calendar.

Dentists were keen to meet Luke and his team, to discuss the benefits of the Laboratory’s high quality approach to cosmetic and Restorative solutions.

The team was delighted to talk about its in-house milling services, advanced CAD/CAM technology and photography facilities, as well as the specialist technicians and an array of services that include shade taking and custom finshing.

Based in Watford, Luke Barnett represents a new standard in comprehensive treatment planning and minimally invasive solutions.

For more information please contact 01923 251 557 or visit www.lukebarnett.com

Tri-Sok now available in a cost effective 7gr Tube!

Tri-Sok is used for the treatment, after development, of inflammation in an extraction socket. Tri-Sok also prevents infection in the extraction socket where there is a history of Dry Socket and where the extraction has been traumatic.

Kiwi dentist wins postgraduate prize at Salford

Pierre Gill has won the 2nd Annual Best Essay Prize on the Dental Implantology Masters Programme run by the School of Healthcare Professions at University of Salford. Pierre now works in Liverpool at the Peers Backstrom dental practice, although he originally qualified at Otaga in New Zealand.

According to Gillian Crofts, Academic Programme lead, Pierre’s work stood out as being an excellent example of how he had both understood the theoretical aspects of the management of tooth loss and demonstrated insight into his patient’s situation, as well as demonstrating the ability to apply the appropriate medical evidence to the case.

The Dental Implantology Masters Programme at Salford is unique in offering Dentists an extensive clinical and academic network, the 1st of its kind to be established in the North West. As a result, it attracts a number of recognised guest speakers such as Dr Philip Freiberger, ITI Fellow and past president of the ABID and Mr Koray Feran from...
New Curasept Mouthwash with Anti- Discolouration System!

The new Curasept mouthwash, available from the Dental Directory has all the efficacy of a CHX product, but now with clinically proven patient compliance!

Patients prefer using a chlorhexidine mouthwash with ADS (anti discolouration system) rather than chlorhexidine mouthwashes without - its official!

The extensive Curaprox range is also available from The Dental Directory and includes a daily CHX rinse, a daily CHX toothpaste, a higher intensity rinse for specific short term use, and the welcome return of the 0.5% gel for topical application of chlorhexidine.

Smile-on Enriches Knowledge At The Dentistry Show 2009

Attendees at the Dentistry Show (NEC Birmingham, 15th-14th of March 2009) saw how new approaches to learning benefit the entire dental team.

Dentistry is becoming more competitive, and patients will only accept the very best. What's more, new guidelines demand continual improvement. Smile-on provides fresh and exciting methods of developing the skills and knowledge required, in formats that are compatible with even the busiest schedules.

Smile-on showed delegates what was possible with the latest technology. It demonstrated the benefits of digital imaging in conjunction with complete treatment plans, produced on computer-aided design and computer-aided manufacturing technology.

For more information call 020 7400 9898 or email info@smile-on.com

Scientific Dental Solutions!

Nobel Biocare, the world leader in innovative restorative and es-
thetic dental solutions, has an out-
standing range of effective, easy to use implants that are scientifically proven to be safe and effective.

Offering high initial stability for all indications and in cases of immediate extraction & implant placement, NobelReplace™ Ta-
pered is the most widely used implant in the world. Completely colour coded and excellent for narrow spaces between remain-
ing roots, NobelReplace™ offers:

- Step-by-step drilling protocol for predictable surgical proce-
dures
- Internal tri-channel connec-
tion for accurate and secure prosthetic restorations
- Implant design that mimics the shape of a natural tooth

To find out more about the PG Dip/MSc Dental Implantol-
metry course contact Gillian Crofts, Academic Lead, via g.crofts@salford.ac.uk

To find out more about the communication skills programme Communication in Dentistry: Stories from the Practice. This lets dental professionals open clear lines of communication with patients, laboratories and peers, reducing complaints and the risk of legal action by pro-
moting clinical efficiency and patient satisfaction.

Delegates were introduced to digital imaging and the con-
siderable benefits of using cam-
eras safely and effectively with the Clinical Photography Course, available on CD-ROM or online. Other vital solutions discussed included DINSTART and Clinical Governance Management, helping practices satisfy industry re-
quirements and ensuring that Smile-on continues to be recog-
nised as the provider of path-
ways to excellence.

Open the Door To Your Dream Practice With Genus

When it comes to Design and Build, Genus provides a world-
class service. The team uses the latest Computer Aided Design and 3D rendering software to produce designs that meet the dentist’s unique vision and comply with the latest industry guidelines.

Genus understands that location has a huge bearing on success, and will aid the dentist in finding the most suitable site. When construction begins, a dedicated expert will oversee the project on the dentist’s behalf, half ensuring that everything runs smoothly within the agreed budget and timescale. The dentist always feels in control because there is always a clear and accountable point of contact.

No practice is ever complete without the latest equipment, because Genus are not tied to

“Convenient and cordless, the massaging sensation makes the Waterpik® a great addition for anyone wanting for perfect oral hygiene. It’s great and simple to flush out around braces, bridges, implants or even deep pockets.

Waterpik® Dental Water Jet to her patients.

Diamond Rapid set GIG capsules are proving to be very pop-
ular with dentists because they save time, without the need to hand mix. Before the end of March; buy one Diamond Capsule value pack (60 capsules) for £72.00 saving you £18.00 on the normal selling price of £90.00.

Or buy 2 value packs for £144.00 plus a free box of Prac-
ticeSafe wipes.

Denti-Brush Interproximal Introductory Offer

Denti-Brush Interproximal brushes are an extremely effec-
tive way of removing plaque and food particles from inter-
dental spaces.

The main benefit is that each brush has a flexible handle and brush to increase control and access to difficult areas. Unlike other brushes, the tip has been specially designed with a unique pivot technology en-
abling it to bend easily and min-
imise potential breakage.

Denti-Brush is available in 4 sizes in packs of 6 brushes. Each brush has its own hygienic protective cap making it ideal for travel as well as at home. To find out more about the promotions we are running this month or to receive further infor-
mation and samples please call 0208 426 5558 or visit our website www.periproducts.co.uk
