An implant course to provide you with the necessary knowledge and skills to start a successful career in implants. The course is aimed at general dental practitioners looking to integrate implant dentistry into their patient care.

The course provides:
- All necessary education to comply with the GDC guidelines as set out by the Faculty of General Dental Practitioners, UK and the Royal College of Surgeons, England, in the document entitled: Training Standards in Implant Dentistry for GDP’s 2008 (download at GDC.gov.uk)
- Compliant with GDC guidelines for 185 verifiable CPD points.
- Benefit from over 20 years of clinical knowledge & experience.

The course:
- 18 full days spread over a 14 month period, located in Harley Street, London.
- Maximum of eight candidates per course.
- Each candidate will place and restore at least two implant cases under the direct supervision of Dr Mark Hamburger. In addition: treatment planning, surgical and restorative observation of all course patients.
- Guest speakers:
  - Dr Henri Thuau, Consultant Maxillo Facial & Oral Surgeon
  - Dr Jo Omar, Medical Emergencies and CPR

Dual care for gums and teeth

Corsodyl Daily Gum & Tooth Paste is different from regular dentifrices

- The only formulation to contain sodium bicarbonate, 1400 ppm fluoride and six natural plant extracts
- Backed with 30 years of dedicated gum health expertise
- Over 67% of the ingredients are for the care of gingiva and teeth – compared to 25% in many other regular dentifrices
- Free from sodium lauryl sulfate – suitable for patients using 0.2% chlorhexidine digluconate mouthwash

Corsodyl Daily Gum & Tooth Paste is a clinically proven dentifrice, which can kill bacteria that can cause gum disease¹. With regular brushing, it helps maintain firm and tight gums and a low gingival index².

Recommend Corsodyl Daily Gum & Tooth Paste – because teeth need gum care too

CORSODYL is a registered trade mark of the GlaxoSmithKline group of companies.
