The Dental Directory gives an Express Repair!

Handpiece Express, the servicing and repair service from The Dental Directory can ensure the fast turnaround repair of your handpieces and motors. So confident of this, if the work is not completed within 24 hours of your approval of the quotation you will not be charged*

Regularly servicing handpieces, motors, couplings and scalers will prolong the life of your equipment. Inevitably handpieces will always fail at the most inconvenient times causing maximum disruption. Planned maintenance and scheduled servicing will prevent this. Servicing also ensures reduced running costs, smoother operation and efficiency which leads ultimately to improved treatment standards and comfort for patients.

The Tri Auto ZX has three automatic functions that significantly increase the accuracy and safety of root canal treatment. It offers the following innovative features. Automatic start & stop, whereby the file starts rotating automatically when it is inserted in the canal and stops when it is taken out. Auto torque reverse, which means that when the torque load on the file exceeds the set limit the file automatically stops and then reverses its rotation.

If you are looking for an economic, fast connecting, lightweight, functional turbine look no further than EOLIA from Bien-Air.

For further information please contact Bien-Air on 01596 711 955 or visit www.bienair.com

Star Dental High Speed Handpieces

Star Dental offers the Solara (shown) and 450 Series for high-speed handpiece needs.

The Solara Series features a revolutionary elliptical shaped and scalloped handle which creates a solid, tactile feel. The remarkable strength and corrosion resistance inherent in titanium offers years of heat sterilization without the damaging effects associated with cosmetic plated metal coatings.

The patented turbine with ceramic ball bearings means no oiling and no residual lubricant expelled into the oral cavity whilst ceramics means longer lasting and less friction to reduce heat generated.

The Solara family features small head and larger 4 port head as well as models to fit Multiflex couplings.

Made from durable stainless steel and featuring small head, the 450 series aids manoeuvrability and overall access, without sacrificing torce.

Star Dental is part of the DentalEZ Group of companies.

Quality Endodontic Distributors Ltd

Morita Tri Auto ZX
The only endodontic handpiece with built-in apex locator

Quality Endodontic Distributors Ltd are the UK distributors of the evolutionary Morita endodontic range including the Tri Auto ZX, the only endodontic handpiece with built-in apex locator.

The Tri Auto ZX has three automatic functions that significantly increase the accuracy and safety of root canal treatment. It offers the following innovative features. Automatic start & stop, whereby the file starts rotating automatically when it is inserted in the canal and stops when it is taken out. Auto torque reverse, which means that when the torque load on the file exceeds the set limit the file automatically stops and then reverses its rotation.

The Tri Auto ZX is high-lighted in the QED Catalogue, the definitive guide to Endodontic products for both GDPs and Endodontic Specialists, and featured on www.qedendo.co.uk, the online version.

For further information telephone Quality Endodontic Distributors Ltd on 01755 404999, email sales@qedendo.co.uk, fax 01755 561245 visit www.qedendo.co.uk or contact your local QED Salesperson.

Perfectly Balanced Economy from Bien-Air

Working with the new EOLIA turbine from Bien-Air, you will discover a state-of-the-art turbine offering renowned Swiss quality at a surprisingly affordable price.

Perfectly balanced with smooth lines, the EOLIA turbine is lightweight (38g) and comfortable to hold thanks to its ergonomic design. This powerful turbine offers speeds up to 150,000 rpm and a fast connection to 2, 3 or 4 line hoses due to the B type bayonet coupling. Available in 2/3 hole or 4 hole versions EOLIA features a built-in water non-return system to prevent contamination from infected water.

Optimum cooling in guaranteed too with EOLIA due to the single water spray that is separate from the air port. With a large push button burr release mechanism, changing your burs is quick and simple.

If you are looking for an economic, fast connecting, lightweight, functional turbine look no further than EOLIA from Bien-Air.

Quality Endodontic Distributors Ltd

VDW Silver Motor Dedicated for endodontics

Quality Endodontic Distributors are UK Distributors of the VDW Silver Motor, which is specifically designed for endodontic applications.

Battery and mains operated, it features an integrated battery which enables the motor to be operated whilst simultaneously being recharged. The VDW Silver motor is specifically designed for endodontic applications. It incorporates a range of features designed to make the operator’s life easier.

Like the rest of the QED range, the VDW Silver Motor is featured on www.qedendo.co.uk, the online version of their product catalogue.

The website contains all the products contained in the QED catalogue. Products are carefully illustrated to aid selection and are explained with detailed descriptions on each page. So it is now possible to place your order online, whenever you want. The site also includes links to working protocols provided by leading endodontists.

For further information telephone Quality Endodontic Distributors Ltd on 01755 404999, email sales@qedendo.co.uk, fax 01755 561245 visit www.qedendo.co.uk or contact your local QED Salesperson

ChairSafe - the new innovative disinfectant foam cleaner from Kemdent

ChairSafe is the new disinfectant foam cleaner from the Kemdent range of cross infection control products. It is available in 500ml bottles and 1L refill containers. ChairSafe foam is specially formulated to clean sensitive surfaces and equipment, including the leather and synthetic facings of dental chairs. As soon as you try it you will recognise the real benefit of this product. The foam is non-drip. It remains exactly where you apply it, making it ideal for the angles and contours of a dental chair.

ChairSafe is an aerosol and alcohol free foam that is suitable, not only for alcohol sensitive materials such as leather, acrylic glass and vinyl but also hard surfaces, inventory and medical products. It is effective against HBV/HIV/HEV/BVDV/vacina, bactericidal and fungicidal microorganisms within one minute of application.

For further information on special offers or to place orders call Jackie or Helen on 01787 770256 or visit our website www.kemdent.co.uk.

Giving The Profession An Advantage

Products sold in practices are often demonstrated to patients to ensure they’re being used correctly. In recognition and appreciation of the time and effort this entails, P&G will include a free educational DVD and a range of replacement heads with every Professional Care and Triumph power product sold. This extra value pack will only be sold to dental professionals and will help ensure your patients use the right type of brush, the right way.

The introduction of these products professional-only packs has been timed to coincide with the introduction of some product upgrades in the range. At the top is still Triumph SmartGuide which has been re-branded ‘Triumph 5000 SmartGuide’.

This remains the Company’s flagship product containing a microchip in the handle which provides the user with feedback via a wireless display to encourage compliance. Nextis ‘Profession Care 5000’ (formally known as ‘Professional Care 8900’).

For more information please contact your Oral-B representative or call 0870-2421850.

Practice Plan cycle, climb, run and renovate.

In November 2008, a team of nine Practice Plan volunteers packed their overalls and scrubbing brushes and travelled to Tanzania in Africa, for a trip that will remain imprinted in their minds for a lifetime.

The dental plan provider, who design bespoke dental plans and provide marketing and business support to over 1000 practices across the UK, were about to embark on a life-changing care centre renovation project, although their first goal was to complete the final leg of the now infamous, UK National Relay.

In order to raise funds for the trip to Tanzania, the ‘National Relay’ was devised, involving a Baton being passed from one dental practice to another with plenty of amusing fundraising activities along the way.

On Saturday 28th March, a number of staff were due to take part in a sponsored sky-dive but, unfortunately due to bad weather, the leap of faith was cancelled. It has now been rescheduled for Saturday 5th May, so keep your calendars open and let us know how it goes and how much we raise for our individual charities.

For more information, please visit www.practiceplan.co.uk or www.bridge2aid.org.

Look After Your Hogies With NEW Bossklein

Rapid, effective and thorough disinfection requires quality products that work every time. The innovative new alcohol-free Bossklein infection control products have been designed specifically to achieve a high standard of cleanliness without causing the damage associated with many alcohol-based products.

The first choice for use with the stylish and cost-effective Hogies EyeGuards, Bossklein infection control offers two types of convenient protection:

• Bossklein Wet Wipes have a 60-second bactericidal effect, and also combat Adenovirus and enveloped viruses including Hepatitis B, Hepatitis C and HIV.

• Bossklein Foam takes effect against bacteria and fungi within just 10 minutes, and Hepatitis B and HIV within 5 minutes*. Supplied in a unique, biodegradable 50ml dispenser, application is easy: you just spray and clean.

Exclusive to Blackwell Supplies, the Bossklein range provides fast, reliable and non-damaging disinfection for your Hogies EyeGuards.

For more information please call John Jessop of Blackwell Supplies on 020 7224 1694 or fax 020 7224 1694.

Dental Air – Making Staff And Patient Wellbeing A Priority

Enjoy the benefits of a compressed air system that will never let you down with Dental Air. By entering into a new relationship with this leading company you can make sure that your compressed air is clean, dry and free of infective material – protecting the wellbeing of your patients.

If your practice still uses a last-generation oil-based compressor, then you need to be aware of the potential hazards involved. Without regular maintenance, this equipment can start to produce lethal bacteria that can then be passed on to patients via air-powered instruments.

With a great reputation for putting customers first, Dental Air will visit any UK mainland practice and carry out a full examination of compressors. With comprehensive knowledge of all new and existing industry requirements, Dental Air provides non-obligation advice and supplies cutting edge oil-free piston and scroll compressors, to help you meet your responsibilities.

Call Dental Air on FREEPHONE 0800 542 7755 and ask for a FREE Practice Manager’s Guide, or visit www.dentalair.co.uk.

Increasing re-call efficiency

Long and frustrating conversations with patients, asking for clarification of contact details and previous dental history are now a thing of the past thanks to Software of Excellence’s new Computer Telephony Integration (CTI).

Software of Excellence’s new CTI module is an additional module to practice management system EXACTM Version 10, and offers you the opportunity to dramatically improve practice efficiency by automatically recognising the identification of every incoming telephone call. CTI reduces the amount of unnecessary time spent on the telephone, saving on average 50 seconds per call.

Be At The Forefront of Periodontal Care

By bringing the latest technology into your surgery you can set your practice apart as a source of gold standard patient care.

Pertivowem is a state of the art treatment for periodontal disease. It’s Photo Dynamic Injection process involves the application of a photosensitiser that preferentially binds with target bacteria before a non-thermal laser is applied at the compound specific wavelength. Target bacteria at the treatment site is destroyed by reactive oxygen species, and virulence factors are inactivated.

In combination with scaling and root planing, Pertivowem has been shown to increase clinical attachment level and reduce probing depth at 12 weeks, with bleeding on probing decreased at 6 weeks.

Pertivowem has no known resistance or antibiotic side effects. It does not damage host tissues, and with no patient compliance issues and short treatment time per periodontal site, the protection of patient wellbeing during treatment is ensured.

For more information on Periowame call Oraldent on 01480 862080, email core@oraldent.co.uk or visit the website at www.oraldent.co.uk/periowame.html.

Emma Whiford is part of the award winning, Bow Lane Dental Group and has recently tried WaterPik to see for herself the advantages of the innovative technology.

“I found it very easy to use, and my mouth felt nice and clean afterwards. I will definitely be recommending WaterPik to my patients especially those with that have difficulty with flossing (and those who cannot be bothered to floss). Also for patients with implants, bridges, tight restorations and crowded areas.”

With an array of unique tips, the Waterpik® Dental Water Jet offers all patients outstanding oral care.

Waterpik® Dental Water Jets are now available in Boots stores or speak to your dental wholesaler for your professional courtesy discount. For more information visit www.waterpik.co.uk.

The Importance of Tax Investigation Cost Protection

Professional Fee Protection understands that Tax Investigation is a very arduous process, with bills often running to several thousands of pounds. Authorised and regulated by the Financial Services Authority, Professional Fee Protection Limited can offer insurance that pays up to £75,000 towards the fees of an accountant or specialist in the event of an investigation, protecting your valuable peace of mind.

The team works with clients to find the best policy to suit their needs. Policies include TaxMaster Protection, with which Professional Fee Protection will pay all professional fees incurred in dealing with Full Enquiries and VAT Disputes that start and are notified to PFP in writing during the period of insurance. This can be extended to include Aspect Enquiries, which on more arduous aspects of the tax return are investigated.

Professional Fee Protection also offers the HR Plus service for all of your Human Resources needs.

For more information contact PFP on 0845 507 1177 or email info@pfp.uk.com, www.pfp-online.com.

The Professional Solution!

With an array of unique tips, the Waterpik® Dental Water Jet is offering their patients.

The Waterpik®Dental Water Jet is offering their patients.
UCL Certificate in Endodontics

The UCL Eastman Certificate in Endodontics is a 24 day course commencing in October 2009 and running over 12 months. Participants will have the choice whether to attend fortnightly or for 6 four day modules spread over the year.

Delivered partly through seminars and lectures, practi- cal sessions will take place in state-of-the-art endodontic skills laboratory using microscop- e and the latest instru- ments.

Some of the topics to be covered will include:  
- Pulpal and periapical pathology  
- Endodontic diagnosis  
- Success and failure

stains from teeth, without harsh abrasives. Tests conducted by the BBC Watchdog programme revealed that Beverly Hills Formula Toothpaste removed over 90% of staining. According to another BBC research study suffer 40-50% of adults across the world from gum disease, making this the most common dental problem. In its bid to pre- vent gum disease by controlling the amount of plaque that builds up on your teeth, Beverly Hills Formula has formulated Gum Strengthening toothpaste. Regular brushing with their latest whitening toothpaste will help nourish and strengthen gums, fight plaque, re-mineralise and nourish and strengthen gums, whitening toothpaste will help.

Rent before you buy...

If you’d like a Digital system but want to try before you buy – you can with Velopex. You can rent any of our Digital systems (complete with software, position- ing devices and full instruc- tions) for up to 5 Months – before you buy!

Vizilite Plus™ comprises of a chemiluminescent light source (Vizilite) to improve the identifi- cation of lesions and a blue phe- nothiazine dye (TBlue) to mark those lesions identified by Vizilite. Carried out as part of a general check up, Vizilite Plus™ is a simple, low cost, pain free and 100 % sensitive test that can help save lives or give Patients peace of mind.

BioHorizons announces new Occlusion for Implants course

On 26th June, BioHorizons will be running a course on Oc- clusion for Implants with Dr Christopher Turner at the Cotswood Postgraduate Dental Teaching Centre in Cirencester. This course will be invaluable learning and experience for both dentists looking to get into implant dentistry and expe- rienced implant users, focusing on the importance of creating a balanced occlusion for implant patients and how to avoid im- plant failures from occlusal causes.

For more information on the outstanding benefits CariesScan PRO™ can offer you, call the dedicated team on 0845 4759875 or visit www.caries- scan.com

Vizilite Plus™ Screening Test for Oral cancer

Vizilite Plus™ is a simple technology to assist in the early detection of oral abnormalities including premalignant lesions and oral cancer.

For more information please contact Dr Helen Harrison.

Another study in the USA found that 100% of patients preferred air abrasion to the ro- tary instrument, which is why CariesScan is such a practice builder.

More information can be found @ www.d-p-s.uk.com DPS telephone number is 01458 820550

The daily grind is recession proof!

Bruxism is on the rise during the recession, medical experts reported recently. Bruxism is a multifactorial issue and many of us are unaware of the causes and the impact it can have on the den- tistry practised on our patients.

S4S (UK) Limited are spon- soring a series of Occlusion & Oc- clusal Splint Seminars, pre- sented by Dr Helen Harrison BDS, MFGDP. She has so far pre- sented to over 480 GDPs on this subject.

Our dentists clients have re- ported that treatments with splints has increased well over 50% in the last year and that for many splint therapy has be- come a real practice builder, particularly in the current eco- nomic climate.

To help you learn more about this area of dentistry, S4S would like to offer readers £50 discount off the course ‘Introduction to Occlusal Splints in General Practice’ presented by Dr Helen Harrison.

To reserve a place call S4S (UK) Ltd on 0114 2500 176 or visit www.s4sdental.com
