Just Dental Supplies is a UK supplier of dental products who aim to offer Quality, Value and Choice. Just Dental Supplies are now the official distributors of Dentilite, a leading German manufacturer of quality dental materials. The range offers a comprehensive selection including Dentilite Plus, a high curing Nano Microfilled Composite which is highly-polishable, easy to work with and has low voc emission. Dentilite Plus is also available in a highly flowable composite resin. Its hardness and elasticity make it ideal for small cavity fillings. For further information or to request patient samples, please call the Colgate Total Helpdesk on 0845 899 18 18 or visit our website www.colgate.co.uk.

Colgate Total® is for everyday use. It contains a unique combination of triclosan, an antibacterial agent, along with a copolymer.

A comprehensive series of patient testimonials. Colgate has a number of resources to support patient recommendation of Colgate Total toothpaste, these include a waiting room poster for your practice to encourage your patients to seek advice from you on how to improve their gingival health, along with a patient information leaflet entitled ‘Helpful tips to keep your gums healthy’ to help you in your patient discussions.

To find out more information or to request patient samples, please call the Colgate Customer Care Team on 01483 401 301.

**Colgate Total® is for everyday use.**

Colgate Total® is an effective help against gingivitis, which is a common condition affecting the gums.

Gingivitis is an inflammatory condition of the gums that is caused by plaque, a sticky film of bacteria and debris that forms on teeth.

If left untreated, gingivitis can progress to periodontitis, a more serious condition that can lead to tooth loss.

Colgate Total® helps to fight gingivitis by helping to remove plaque and reduce gingival inflammation.

Colgate Total® contains a unique combination of triclosan, an antibacterial agent, along with a copolymer.

By using Colgate Total®, you can help your patients maintain healthy gums, which is important for overall oral health and well-being.

**Colgate Total® is for everyday use.**

Colgate Total® helps to prevent gingivitis by helping to remove plaque and reduce gingival inflammation.

Colgate Total® contains a unique combination of triclosan, an antibacterial agent, along with a copolymer.
