Scientific seal of approval for the implant planning and implementation of the GALILEOS system

Scientists at Cologne University subjected Sirona’s GALILEOS 3D X-ray system to intensive testing over a period of two years. These experts were convinced by the system’s accuracy, as well as its intuitive user interface.

Sirona is the only manufacturer worldwide which offers an integrated concept consisting of 3D imaging as well as computer-aided implant planning and implementation. In combination the GALAXIS 3D X-ray software and the GALILEOS System requires only one scan in order to visualise the entire cranial volume.

With the help of integrated software application “GALILEOS Implant” the practitioner can plan the implants on the same user interface. This planning data, together with a plaster impression and bite registration, is then sent to the Sirona subsidiary sCAT in Bomm. In a matter of days the practitioner receives the custom-made surgical template.

The OPMI Pico: the best microscope at the best price

The remarkable Videorcam from Castellini perfectly illuminates the operating area with LED flash technology and has the ideal capacity for clinical observation.

Easily facilitated by the wealth of software available in the Videorcam System, images captured can be used for a variety of applications and can help patients better understand diagnosis and treatment options.

The Soft-Touch command allows crisp images to be captured using a dental foot control, without the use of a flash. These images boast outstanding clarity and sharpness and can be simply transferred to a PC via USB 2.0.

Interproximal areas are simplified by the Videorcam’s miniatured head and Macro function. This outstanding feature allows the Videorcam to translate even the smallest details and create high-resolution, natural colored images that are accurate and precise.

Castellini pride itself on producing the highest quality technology so you can provide your patients with the highest quality care.

For further information about the comprehensive range of Castellini products call 0870 756 0219 or visit www.castellini.com

The OPMI Pico is an excellent addition to any practice. Truly versatile, this established microscope benefits a wide range of specialists and general dental procedures, and is available from Nuview at an affordable price.

The OPMI Pico lets you examine the very finest details and the integrated light source means that you can see hard-to-reach regions in conditions approaching daylight.

Form follows function and all settings are easily changed without interrupting procedures. With the addition of the MORA Interface (Mechanical Optical Rotating Assembly), the OPMI Pico becomes even more mobile, and features include quick switching between site overview and detailed view, with one-hand repositioning.

The OPMI Pico is supported by a friendly and prompt after-care service from Nuview, to ensure that you get the most from this high quality technology.

For more information please call Nuview on 01445 759659, email info@nuview-ltd.com or visit www.voroscopyes.co.uk

We’ve refocused our vision...

As the UK’s No. 1 supplier of loupe and lights, our vision is to supply the very best precision products, combining exceptional quality with outstanding design.

Our new loupes and lights are expertly custom-made by leading supplier ExamVision™. Founded by Jorn Rønvig and optometrist Kim Jensen, ExamVision™ offer a welcome commitment to delivering superior design and quality craftsmanship, which perfectly complements our 16 years of unrivalled loupe experience and outstanding customer service.

Available in 2 styles, 5 frame colours and 5 frame sizes, each ExamVision™ loupe is individually crafted to your personal measurements at a purpose-built factory on the small, tranquil island of Samsø in Denmark. ExamVision™ produce loupes and lights to the highest standards, providing a quality product that Evident are proud to endorse.

Our vision has always been to exceed our customers’ expectations and we are confident our exceptional service combined with the superb quality of ExamVision™ loupes and lights will refocus your vision too!

Developed by world-renowned experts at Zeiss exclusively for dental use, the OPMI Pico is an excellent addition to any practice. Truly versatile, this established microscope benefits a wide range of specialists and general dental procedures, and is available from Nuview at an affordable price.

Sudent Dental Systems
Orthophos XG Plus
The optimum in 2D digital imaging!

Looking for the optimum in 2D digital imaging? Incorporating a colour touch screen, innovative electronic platform and software upgrade options the Orthophos XG, from Sident Dental Systems, is easy to operate and has a logical patient positioning system that facilitates optimum imaging results. Consequently it provides exceptional imaging quality and user-friendliness.

Its user interface is clearly laid out and easy to understand, its touch screen graphics making selection of functions easy whilst virtually eliminating operator errors. Consequently it accelerates imaging procedures and produces consistently excellent image quality.

It features an intuitive programme structure, enabling Practitioners to choose between standard, constant magnification or artefact-free imaging. These imaging areas can be selected individually to minimise radiation doses to patients.

Finally its high-performance data processing facilities help ensure fast acquisition, presentation and archiving of images.

Ignite Your Passion with Sirona CEREC!

With dental technology constantly evolving, now is the time to log on to Sirona CEREC, a brand new website. Sirona CEREC is dedicated to ensuring customer satisfaction from before the moment of purchase. To keep you a priori-priortise training, as they realise how crucial it is to be kept up to date with the very latest techniques.

With a free online training facility www.sironacadcamsoutions.com, it allows you to more than visualise how beautiful restorations can be created in the comfort of your own surgery. Get to know the system quickly and learn how to market CEREC to your patients. See actual cases in your home or at the practice; from the most simple procedures to more advanced cases.

With hours of free training to refresh your memory or to learn about the reality of CEREC – ignite your passion for dentistry with CEREC from Sirona.

For further information please log onto www.sironacadcam-solutions.com or call Sirona Dental Systems on 0845 071 5040 or email info@sironadental.co.uk

Simple and compact, the PaX Primo Intelligent features Vatech’s AMPT technology enabling Practitioners to obtain perfect image quality regardless of the patient’s position and size of the dental arch. It captures a series of images and automatically combines them into the optimum diagnostic view.

In addition to the standard panoramic and TMJ modes the PaX Primo Intelligent also has Bitewing, Horizontal/Vertical segments and Cross Sectional modes. All of these functions and the superb image quality make this the prime choice for your next panoramic system.

Digital Dental can also supply Vatech & E Woo’s complete range of CT and Panoramic Units.

For further information call Digital Dental on 0800 027 8393, digitaldentalt.com or email sales@digitaldental.co.uk or visit www.digitaldental.co.uk

Clark Dental

Schick Technologies is well-known for its range of high quality digital imaging equipment, and dental practices throughout the UK are benefiting from its outstanding portfolio.

Dr Shan Perera of Connaught House Dental Practice, London, has brought Schick Technologies into his practice. “Schick Technologies has a long reputation of robust equipment and is seen as the cutting edge,” he says. “Also, it was the only company that could convert our OPG to iPan.” This has enabled the...
Must-Have Technology at Must-Have Prices

Keeping ahead with the continuous advances in dentistry is more affordable than ever. The ASPD has dedicated the most up-to-date information and guidance available to them.

ASPD's website is constructed to provide a forum for dental professionals looking for comprehensive guidance on what to contact for information. There are up to date articles, and a list of member's contact details for reference.

For more information on the ASPD please call 0800 4586775 or visit www.aspd.co.uk.

Bleaching solutions

With Vita’s unique bleached shade guide you can monitor your bleaching process in a realistic and logical manner (special offer price £52.60) and to cure any cervical sensitivity INSTANTLY and for up to 9 months, use Hurriseal® Dentin Desensitizer 5ml (special offer price £50.28) without glutaraldehyde!

Velopect Zephyr 150 Surgery Air Supply

We are delighted to introduce the Velopect Zephyr 150 Surgery Air Supply. This is the first Compressor designed and developed a non-running, non-dripping syringe based on the innovative non-dripping technology (NDT®) specifically for highly flowable materials.

Fissure sealant with excellent material and handling properties

Grandio Seal is a light-curing, non-dripping technology. It is the only dental CBCT to produce a comprehensive guide on who can pay much less and achieve the best expert guidance available to them.

Extra value Special Offer only £88.00 includes: 1x bleached shade guide, 1x HiRIssel Dentin Desensitizer 5ml and 2 packs of Hurriview II disclosing plaque swabs (worth £12.76 each). Prices do not include VAT.

Call Panadent 01089 88 1788

Grandio Seal – Now in new NDT® syringes

Hygienic and efficient use through non-dripping technology

Starting now, syringes that run, drip and leave strings and the accompanying waste of expensive material handling to the past. Grandio Seal, the proven fissure sealant, is now available in the specifically designed NDT® syringe. VOKO has successfully developed a non-running, non-dripping syringe based on the innovative non-dripping technology (NDT®) specifically for highly flowable materials.

Dentomycin: The Adjuvant Treatment That Reduces Key Pathogens in Periodontitis

Dentomycin provides clinicians with an effective anti-microbial and anti-inflammatory adjunctive, effective at any point during the treatment of chronic adult periodontitis including the earliest stage. Combined with scaling and root planing, Dentomycin can reduce pocket depths by up to 42% in just 12 weeks.

Dentomycin is proven to attack the bacteria prevalent in periodontal disease. After 5 or 4 applications (with 14 days between each one), this cost-effective product significantly reduces the key pathogens and is also effective in areas that are hard to reach using instruments, with the flexible, prefilled applicator allowing you to access and apply the gel directly to the pocket base.

Easy to use and cost-effective, Dentomycin is simply an essential product.

For more information please call John Jessop of Blackwell Supplies on 020 7224 1457 or fax 020 7224 1694.

How to Talk Money with Confidence

Software of Excellence’s ‘Thrive in 2009’ seminar series continues into June, as the world leaders in practice management and marketing solutions, team up with “thought leaders” Ashley Latter, to help you learn more about getting the most from your Practice Management system; inform, market and sell to your patients.

As one of the dental industry’s finest motivational speakers, Ashley is the ideal person to guide you through some proven techniques so that you can feel confident and comfortable when talking money and achieving the right prices for your services.

The seminars, which include a complimentary buffet, will be worth 4 hours of verifiable CPD and will run from 6-10pm at the following venues throughout June. Places cost £60 (incl. VAT) per person or £119 (incl. VAT) for two people.

• 08 June Glasgow
• 10 June Belfast
• 15 June Manchester
• 16 June Bristol
• 22 June Dublin
• 24 June London

Places are limited so to avoid disappointment reserve your place today by calling 0845 545 5767.

NobelActive™

The innovative dental implant NobelActive™ has been especially designed for high initial stability in soft bone and extraction sockets. NobelActive™ was launched after the successful completion of pre-launch activity involving experienced users worldwide over an eight-month period.

Dental professionals have found several benefits in working with NobelActive™ including:

• High initial stability, even in compromised bone situations
• Bone condensing property
• Adjustable implant orientation for optimal final placement
• Built-in Platform Shifting
• Dual-function prosthetic connection
• TiUnite & Groovy compatible.

More than 150,000 NobelActive™ implants were sold in 2008. This unprecedented response signifies that NobelActive™ surpasses the requirements and demands of experienced surgical and restorative clinicians around the world.

The innovative NobelActive™ implant system delivers exceptional initial stability and because of its built-in platform shifting functionality, adjustable implant orientation capability and dual-function prosthetic connection, NobelActive™ offers patients a beautiful, natural-looking aesthetic every time.

For more information visit www.nobelbiocare.com or call +44 (0) 1895 552 921.

Supporting Dental Excellence!

KaVo would like to congratulate the Casterbridge Dental Studio in Dorset in winning the award for Dental Laboratory of The Year at the 2009 Dental awards.

The Casterbridge Dental Studio fought off fierce competition from several outstanding UK Laboratories to be bestowed this prestigious award. The team demonstrated to the judging panel a superior commitment to quality and standards, outstanding teamwork and training and an edge that sets them apart from other laboratories.

Casterbridge is the second UK laboratory with KaVo’s Everest CAD/CAM technology to win this award in recent years. The innovative Everest offers professionals an intelligent software module for excellent workflow with features including:

• Scanning precision 1:1 - Original to digital
• Comfortable project administration
• Software-supported modelling and construction
• Fully-automatic CNG manufacturing
• Therm - reliably to a perfect finish

For further information on special offers or to place orders call Helen or Jackie on 01759 770 090 or visit our website www.kemdent.co.uk.

Ionoseal – Now in new NDT™ syringe

VOCO has successfully developed a non-running, non-dripping syringe based on the innovative non-dripping technology (NDT™) especially for highly flowable materials.

Now in new NDT™ syringe, Ionoseal is a light-curing, ready-for-use, glass ionomer composite cement and it can be used under all restoratives, for extended fissure sealing and treating small lesions. Due to its proven attributes, Ionoseal is also a convincing material in the field of NDT. As a one-component material, Ionoseal is immediately ready to use and can be quickly as well as hygienically applied. VOCO has lowered the viscosity through an additional improvement in the formula. The material can thus be placed in the prepared cavity even better and poorly accessible areas can be wetted more easily.

Manufacturer: VOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.voco.com

For more information please contact Tim McCarthy Uk sales manager. Tel: 01696 613, tmcCarthy@voco.com.

Natural excellence with Eco Dental

Oraldent is pleased to present its Eco Dental range, a clinically proven range of natural products with a high efficacy rate.

Benefits of employing Eco Dental include:

• Naturally sourced active ingredients such as Beech Creosote, Soapwort and Pine – natural antiseptics, analgesics, disinfectants
• Proven clinical results – high levels of patient and dental satisfaction
• Kind to instruments and patients – designed for maximum comfort
• Environmentally friendly – many products are water soluble with no harsh chemicals

The ingredients sourced by Oraldent for use in Eco Dental products have always been traditionally used within the dental field, but have been given a modern twist to provide the optimum treatment results. Dentists can depend on the natural antiseptic and analgesic qualities of ingredients such as pinnas sylvestris (pine) and beech creosote without resorting to synthesised treatments that may elicit allergic reactions.

For free samples please email oraldent@clares@oraldent.co.uk, Or for more information please call 01480 862 080, email enquiries@oraldent.co.uk or visit www.oraldent.co.uk.
