DEIONISED WATER FROM TAP WATER

New Safe-Water system

The Safe-Water system employs a specifically designed ion exchanger that will rapidly transform ordinary mains cold tap water into high quality deionised/demineralised water suitable for use within all electrical steam generating equipment & appliances including all autoclaves.

and underbench models, with hand piece irrigation available for both models. This feature helps deliver a higher standard of cleaning and disinfection when complex, harmed instruments, i.e. dental handpieces are being processed.

The Little Sister autoclaves boast self-checking cycles - independent cycle control and monitoring systems compare actual performance with pre-set specified parameters. Any discrepancy interrupts the cycle, promoting a reliable and validated sterilisation process. Other features include one touch operation to promote efficient usage.

With payment options including one-off payments, 10 months interest free credit and Lease Plan Finance to spread the cost over a fixed term, Eschmann’s service really does suit everyone. The team’s expert engineers can provide a comprehensive site preparation service, and will carry out installation, training and maintenance.

For more information call 01905 875787 or email ic.sales@eschmann.co.uk

Looking to increase your knowledge in implant dentistry?

Look no further – Astra Tech Dental are offering a variety of courses for all general dental practitioners who are working with or looking to work with implants. The courses range from one day courses to year long modular courses depending on what you are looking for.

An excellent course aimed at clinicians wishing to become involved with implant dentistry or have an interest in sitting the diploma in Implant Dentistry is...
New LED Operating Light

With its great modern styling and easy 5-axis manoeuvrability this will enhance any surgery. Through use of two, high intensity LED beams it produces a cool, clear light, which means no need for noisy fans, no heat generated onto patient and no bulbs to change. Comes with easy to re-move handles, which are sterilizable. Also features a light intensity switch, or optional sensor. Light is available in chair and ceiling mounted versions. Utilise the benefits of today’s technology to benefit your working environment and patient comfort.

Water Pik, Inc. is a leading developer, manufacturer and marketer of innovative personal healthcare products sold under the Waterpik® brand name. The company has developed and introduced many products that are considered first of their kind and have led to the formation of new markets. We pioneered the dental water jet, automatic toothbrush, and pulsating shower massage.

Limited Spaces Available!

Spaces are fast running out to see world renowned speaker Nigel Dryfield and will be with us at the St Melion Hotel and Country Club on Friday 14th and Saturday 15th November. New ton will be illustrating how to deliver stunning aesthetic compos-ite restorations.

His presentation will focus on introducing a philosophy of how to work for them. This shows we’re putting Ivoclar Vivadent head office in Liechtenstein.

The meeting focused on all the aspects of the recent developments in osseointegration and researchers and clinicians received state-of-the-art information on different aspects of using these specific implants. BioHori-zons had a stand at the event, which demonstrated all the latest technology and products available.

During the tour, Marc Northover, Ivoclar Vivadent’s UK Product Manager, took time to demonstrate the full range of products and services to match. Ivoclar Vivadent have always ticked all the boxes”.

Vividental Laboratories celebrate 25 years of excellence with Ivoclar Vivadent

Water Pik, Inc. Launches New United Kingdom Website

The new Waterpik.co.uk is a valuable online resource for Water Pik customers, retailers and vendors. The site under scores Water Pik’s focus on cus-tomer service, offering easy-to-use tools and resources in a user-friendly environment, including:

- Product guides
- Expanded product offerings
- Educational materials
- Contact Service information

To achieve this award, Jamie showed incredible aptitude on what was the first year course at the first new dental school to open in the UK in 40 years. The course integrates science, den-tistry and community-based treatments. It is a four-year course, open to those with a sci-ence degree or equivalent clini-cal qualification, and will oper-ate across centres in Plymouth, Truro and Exeter. When it is running at full capacity, the Peninsula Dental School will treat 512 NHS patients a day in term-time across the South West.

For more information on this and other courses or to register please visit www.astratech.dental.co.uk to view our online Training and Education Brochure or e-mail info@dentalez.co.uk or Tel 01442 269301 or email phodgkinson@tinyworld.co.uk

Student Award

As a new generation of clini-cians enter the world of dentistry, one name to keep an eye out for is Jamie Fellows.

Jamie has recently com-pleted his first year at the new Peninsula Dental School in the South West of England, and he has already demonstrated an outstanding level of dedication and clinical knowledge within this exciting discipline. So much so, that he’s managed to heat all first year students to win the ‘Effective Practice’ award. Specifically developed to help recognise emerging tal-ent in this area, this award not only gives Jamie a title to be proud of but also a valuable prize of £250, a reward that was kindly provided by Henry Schein Minerva.

Waterpik.co.uk presents the campaigner of purchasing products directly from the Water Pik, Inc. Web Store or retailer locator informa-tion for those who prefer to shop at traditional retail out-lets.

“We have invested a signifi-cant amount of energy and re-sources in bringing meaningful innovation to consumers in the UK in the areas of health and wellness, and we feel that this new site reflects that effort,” said Richard Bisson, President and CEO, Water Pik. “The new waterpik.co.uk reflects our guiding principles of health, in-novation, and sustainability and provides a more robust cus-tomer service experience.”
