On completion of the course, they will also make valuable savings on the anti-calculus defences against gum problems. For further information please call Michelle@jubcom.com, 07340 178179

The Dental Directory at the 11th Clinical Innovations Conference

The Dental Directory team demonstrated the service that has earned them more than a 50 per cent share of the current dental supplies market at the Clinical Innovations Conference 2011. Delegates were encouraged to speak to The Dental Directory’s representatives about all of their supply needs, and some were offered help, advice and details of the company’s support and reduction programmes, which are designed to save practices both time and money. As the largest provider of dental supplies in the UK, The Dental Directory has access to all the latest products and innovations and can offer competitive pricing and a quality service.

The Dental Directory report that over 27,000 dental practices across the country, and with a 95 per cent reliability record for order delivery, offers a way to use ordering and next-day delivery. So, for an all-round winner I would have no hesitation in recommending Admor to colleagues and be sure to using them again in the future!” Stuart Latten,hey Dental Practice, Edinburgh.

Smile-on and The Dental Directory Award £1000

Smile-on and The Dental Directory have announced four lucky dentists a £1000 holiday to be spent on their Smile-on Dental Directory products while they study for the MSc in Restorative and Aesthetic Dentistry. Not only will the MSc in Restorative and Aesthetic Dentistry receive an MSc degree on completion of the course, they will also make valuable savings on the equipment they will need throughout the programme.

The Innovative post-graduate qualification is the UK’s first online programme for dentists on the subject. Modules include:

• Patient education
• Current techniques, materials and clinical advances in posterior aesthetics
• Management of temporomandibular joints
• Restorative of endodontically treated teeth

The course allows busy dentists to study at their times and locations convenient to them, enabling them to continue treating patients throughout. The majority of the course can be accessed online, but also includes three residential ‘hands-on’ courses.

For more information about the MSc in Restorative and Aesthetic Dentistry, call 0203 7400 0999 or visit www.smile-on.com

Nuview Astonishes Practitioners at Dental Innovations Conference

The practitioners, who attended the Clinical Innovations Conference 2011 at The Royal College of Physicians, were able to benefit from over 14 hours of verifiable CPD and improve their skills in aesthetic and restorative dentistry.

Dr Tif Qureshi, President of the British Society for Laser Applications in Dentistry, said, “As the dental profession becomes more aware of the potential of this field, we are seeing an explosion in the range of products and techniques that can be used.”

Under Armour Performance Mouthpiece

There are many types of sports mouthguard that offer oral protection during contact sports, but Under Armour Performance Mouthguard™ (UAPM) is engineered to offer your athlete maximum performance and comfort during sports and training. Custom-fit by dentists, UAPM’s products benefit all active patients over the age of eight who participate in contact and non-contact sports.

The unique UA ArmourBite™ reverse (UAPM) is engineered to offer your athlete maximum performance and comfort during sports and training. Custom-fit by dentists, UAPM’s products benefit all active patients over the age of eight who participate in contact and non-contact sports.

For more information on Under Armour Performance Mouthguard™, call Nuview on 01453 872266 or email admork@admork.com
