For more information about ASDF. Goodman Legal, Lawyers for Dentists, has many years’ experience in partnership provisions in the GDS regulations. Many practices have a second contract. With no obligation for this to be held by the principal dentists, warns legal expert Ray Goodman. When it is time to sell a practice problems if they try to sell, warns legal expert Ray Goodman.

For more information please call Robyn Wright or Emily Packer at Harvey & Hugo law firm on 020 7183 8388, or visit www.harveyandhugo.com

CS Back Office Software: The Business
CS Back Office software from Carestream Dental is a must-have suite of business tools for intelligent practice management to maximize income and control. Delivering all business-related information to your fingertips, CS Back Office puts you in the driving seat.

The software comprises all the key tools and reports – income and expenses, cashbooks, payrolls, training, development reviews and more. A sophisticated module for the CS i4 Clinic®-practice management software, CS Back Office gathers data from all areas of the practice and provides the information to create a picture of practice performance. With a complete understanding of the practice finances, principals can monitor the business, target areas for improvement and make sound decisions to safeguard the future of the practice.

**Advanced Digital Sensor Technology from Scheck**

Scheck’s new CEREC from Dentsply, is one of the world’s leading digital imaging systems, introducing incredibly high-quality images to meet the diagnostic needs of every clinician.

The modular system is designed so that it can be upgraded to include future improvements in technology, future-proofing your investment and making real-time help in the terms of the patient care you can provide. To expand upon the market-leading Scheck platforms, Scheck Digital now offers Scheck Wi-Fi - a new communications platform designed to add portable functionality to the highly valuable Scheck System.

Scheck Wi-Fi brings a new level of freedom and flexibility to dental digital radiography. With no cumbrous-sensor-to-computer cable to get in your way, Scheck WiFi gives clinicians complete 360-degree chair-side mobility, unattended by training wards and other unwelcome complications.

As one of the UK’s leading dental equipment suppliers, Clark Dental is a name that has long been associated with excellence in all its operations.

For more information call 020 7933 1346, email info@clarkdental.co.uk or visit www.clarkdental.co.uk

**Minimally Invasive Tooth Straightening**

**Treatment: The Inman Aligner**

The Inman Aligner is a new, minimally invasive appliance that straightens anterior teeth safely and in as little as 6-16 weeks. Many professionals are undergoing the training courses from Straight Talk Seminars in order to expand their treatment range, and offer the service their patients expect.

Dr Amita Rajabudh is the principal dentist of OptiDent Dental Clinic, and has been using the Inman Aligner for around a year and has been really seeing the results of the new technology and the way it can change the direction of treatment.

The Inman Aligner is a unique implant and the way it can change the direction of treatment is incredible allowing for an optimal prosthetic position and high overall stability. Both the micro and macroscopic design features of this implant are cutting-edge, and it comes with the backing of a pioneering company for implant dentistry.

"It is an implant that I can see myself growing with." For more information on Nobel Biocare please call 0208 755 3300, or visit www.nobelbiocare.com
