Two New Launched from Carestream Dental at the BDFA Dental Showcase

Carestream Dental showed off a selection of their new technology through a Showcase with its cutting-edge range of practice management and imaging solutions at BDFA Dental.

The second new launch, the CS 94 Communication Tools, enhances communication between Carestream Dental and its customers. The range of Carestream Dental’s portfolio of products and services, assisting both patient understanding and communication with patients across the whole of Carestream Dental’s extended warranty, offering additional peace of mind when purchasing equipment.

For further information contact Carestream Dental on 0800 169 9692 or visit www.carestreamdental.co.uk

ClearSky Launches Specialist HR Service for Dentists

One of the UK’s leading accountancy firms has announced the launch of a dedicated HR advice service for dentists and other specialist medical professionals that have to balance providing a public service with managing teams of staff. The service will offer a no-consultancy approach to HR.

For more details please contact Johnson & Johnson on 0800 328 0750.

Peripeteds would like to thank all the dental care professionals that visited our stand at the BDTA Dental Showcase.

The BDTA Dental Showcase was a huge success! The brand name change, the updated pack design and the new UltraDEX products that have joined the already highly successful range were very well received – UltraDEX Recalifying & Whitening Toothpaste, dual powered by SensiFree® and K+ Aktiv® ActiveOxi Technology™ – UltraDEX White Intensive Whitening Toothpaste. New Delta Gel® (white), UltraDEX® Anti-bacterial Coated Intertempal Tape, powered by Stabilised Chloride Dioxide.

Developed, used and recommended by dental care professionals and backed by extensive scientific research, the UltraDEX range (formerly known as RecalDex) delivers breath confidence, whitening maintenance and exceptional oral health. The clinically proven technology is antibacterial and works with the natural pH level. It releases the appropriate amount of active ingredient to meet the individual needs of each mouth. UltraDEX eliminates colour-causing Vitalite Sulphate Compounds (VSCs) on contact, gently whitens teeth by lifting organic stains and breaks down bacterial plaque biofilm. Bacteria cannot become resistant and regrowth is inhibited.

Our free write-up CPD-trained our personnel and our personalisation UltraDEX Oral Healthcare Kits/Tool Kits also picked up a lot of interest. Peripeteds would like to thank all the dental care professionals that visited our stand at the BDTA Dental Showcase. For further information please visit our website at peripeteds.co.uk or email peripeteds@peripeteds.co.uk.

EndoCare – exceptional patient-centred care.

At EndoCare we pride ourselves on our caring, patient-centred approach. For us, maintaining the health and satisfaction of our patients is always our top priority. Alongside building excellent relationships with all referring practitioners, we are proud to say that we are on the cutting-edge of Endodontics in the UK.

We offer a full range of dental implants, including Osseotite® and Zygomatic implants. Our team of highly skilled Endodontists are among the best in their field, and are wholly dedicated to the diagnosis and referral centres, and offer the perfect combination of aesthetics and function. Until now, clinicians have had to accept a lack of reliability that patients expect. With the introduction of Zirconia-2.0 self-adhesive luting cement, DMG have introduced a completely new generation of self-adhesive luting cements. This new self-adhesive cement provides outstanding adhesive strength to zirconia without the need for separate etching and bonding steps. The Quicklase PowerPen is available at special price of £1950. It is half the price of its competitor, with 3 easy selectable customisable pre-sets.
