To take advantage of our fantastic Christmas surprises, you will need to be quick! It’s first come first served, and the offers are limited. You must place your order by 4.00pm on the 19 December. We’ll dispatch all Hampers on the day of your order, so postal service permitting you will receive your gift before Christmas.

The lecture has been specifically developed for the conference by dentists, hygienists and therapists. Each of the sessions includes elements of interaction using audience keypads, the presentation aims to cover both the prevalence and causes of the condition. Moreover the inclusion of gold research will give insight into the impact on the patient and the role of the dental hygienist and therapist in discussing the condition and making suggestions to improve quality of life. Dry mouth affects around 20% of the population and is especially common in those taking 3 or more drugs. The lecture has been developed specifically for people with dry mouth and can be recommended for daily use. Biotène Oralbalance Saliva Replacement Gel offers patients long lasting dry mouth relief. Biotène Moisturising Mouthwash and Biotène Fluoride Toothpaste offer gentle hygiene for dry mouths and are free from sodium barylulonitrile (SSL). The lecture is scheduled to take place as part of the Scientific programme on Friday the 9th November 2012 at 09.15 and 14.15 at the ACC, Liverpool. BOSTEDC is a registered trade mark of the Glass/smithline group of companies.

Dental Sky has funded a hand hygiene awareness day on 27th September for Dental surgeons in Uganda project. With the assistance of the customers, the sales team at Dental Sky has managed to raise money by holding one of their own Dental Sky Day events. Customers were offered among other deals, a chance to win a limited edition of Dental Sky’s own brand products; R&B, Medline, Clois and Dents and Veracu, and Carla Salutie, the General Manager, made a pledge that ten per cent of the promoter’s proceeds would go directly to Dental to assist with their work in the rural villages of Uganda. The atmosphere in the sales office was electric with support coming in from the Dental Sky customers. Nathan Ans, the youngest member of the sales team, said “I played a shocking round at the Dental Golf Day, so I’m only too glad to redeem myself today by helping to raise money for the Uganda project”. Andy Jen, Dental Sky’s CEO, commented: “Dental Sky has certainly reached for the sky on behalf of Dental, raising a fantastic £210.21 total from our Dental Sky Day event. Our thanks go to them and their customers. This gift will make a huge contribution to our oral health projects in Uganda, chosen by the Dental Sky team to be the recipients of their support.”

To learn more about how your practice can benefit from this fantastic new practice-builders, contact WhiteWash Laboratories today!

For more information call 01793 770026, or visit our website: www.dental-products.com. Waterpik® products are widely available in Boots stores, Argos and selected Lloyds Pharmacies.

Sodium Saccharin (SSL) is a naturally occurring sweetener that is proven to be a good tool in the fight against tooth decay. Thanks to its unique chemical composition, SSL is unavailable to the metabolism of plaque bacteria, reducing their ability to produce acid and adhere. This makes SSL an excellent tool in the fight against dental caries.

Available in a range of flavours including cinnamon, peppermint and cinnamon, Spry Toothpastes (with matrix) are powered by Spry Oral Rinse, also with all-natural SSL for optimum effect.

For further information contact Anyone 4 Tea line on 01482 653211, Dr visit www.anyonetea.com
