KaVo Units, unbeatable value
KaVo dental and producer designers and developers present an offer, a complete range of units to meet the demands of the discerning professional. The new KaVo Primus 1058 series combines the traditional concept of the all-in-one treatment centre, which currently includes the Primus 5058 family of units. All these units are designed to combine superior levels of ergonomics, comfort and user friendliness providing patient comfort and a practical working position for the dental team. All units are available with mobile cart, over the patient chair, swing arm and desktop finishing these units they offer DUBB Suction and Dental Art Cabiery, as well as other essential equipment from similarly tried and tested manufacturers. Whichever possible patient clients are invited to visit the Courtyard, Sidens state-of-the-art training and showroom facility, where they will be able to see the product complete range in action. Finally Sidens will undertake a complete Project Management service, including installation and post installation service support, to enable these dreams to become realities. For further information call Sident Dental Systems on 01932 582000 or email j.clive@sident.co.uk

KaVo, a leading edge German manufacturer of dental equipment, has been making equipment since 1897, with a history of innovation, and adhering to stringent standards of quality and the highest level of craftsmanship.
