**The route to successful endodontics**

Nikon understands that successful endodontic treatment requires precision and attention to detail. Nikon range of endodontic handpieces, microtorques, ultrasonic, apex and apex locator, provide clinicians with a superior level of technology, leading to more predictable treatment outcomes. Nikon’s ENDO-MATE TS endodontic micromotor is specifically designed for use with files with diameters from all major suppliers. This ultrasonic, lightweight endodontic micromotor delivers comfortable treatment in a small, lightweight cordless handpiece, and a simple five-key operation ensuring it is easy to use even during the most delicate endodontic procedures. The TS Vario II TS (ultrasonic scale) provides a patient-friendly and efficient way to meet the challenges of endodontic therapy, with a choice of over 3500 file diameters, it has a large LCD screen incorporated in the lightweight cordless handpiece, and a simple five-key operation ensuring it is easy to use even during the most delicate endodontic procedures. RPA Dental – we heart dentists

At RPA Dental we understand that your priorities are often looking for a little bit more from their equipment provider – something extra that makes their practice run seamlessly. So with this in mind, we’ve launched... – www.thatordentists.com – a campaign that we hope will turn the tide for our industry. We designed it to be used by our clients just how we care.

As a UK-based dedicated family business, we pride ourselves on knowing each one of our clients personally. With extensive experience in every industry, we have a long list of clients and have worked with them to bring our knowledge and expertise to every area.

To discuss your requirements or to arrange a coffee, give us a call on 0800 935 979, or visit our website equipment, www.epidental.com

SAVE TIME AND MONEY WITH DBG

Since its earliest days when DBG was known as the Dental Banking Group, DBG has worked hard to expand from a local provider to encompass a broad range of dental treatments in order to provide its members with the very best in value and support.

DBG’s services now include service, management and compliance programmes to help members step up to date with the latest updates in CQC and DH legislation. It is arranging equipment maintenance, or organising training to meet the latest regulations, DBG is a solution to your practice’s needs. By using DBG’s solutions, you can save time and money by choosing one supplier for all your dental needs.

The current market is so vast and there is a number of companies to choose from. As one of those companies, DBG believes in providing its clients with the very best in value and support. To find out more about DBG’s products and services, please call us on 0854 366 5477 or visit www.dbg.co.uk

ENDOCARE

EndoCare is a UK based endodontic company specialising in NiTi systems. RECIPROC® is made from M-wire™ NiTi which is stronger and more flexible than the stainless steel previously used. The system also has matching master cone and master screw. RECIPROC® is available in lengths 21, 25 and 31mm. The system also has matching conventional rotary file systems.
